

I want to express my feelings regarding NAB' 04-160. I pay for satellite and use there weather and traffic reports to assist me in planning my day. I'm a salesman and do a lot of travel by car. I really enjoy satellite as it is, I pay for a service you can't get anywhere and I did so thinking big brother wouldn't be imposeing there control over a product such as this. Please stay out we don't need a change.
